April 1,2018 is the 15th anniversary of Leslie Cheung's death due to depression.

Honestly speaking ,in my memory ,I know little about Leslie.Maybe the events of Leslie exist in the memory of last generation.Lots of people cherish the memory of Leslie when the death of him comes every year.

I am highly curious about him,therefore,I search for his information on the internet.He is a great singer and released many popular albums, considered one of the founding fathers of pop music.In the late 1980s, he shifted his career focus to the movie industry and shaped many classic roles that no one can rival even to this day.
